Course Pre-requisites, Co-requisites, and/or Other Restrictions

Because this is a full immersion in Spanish with a focus on Medical Terminology and Culture, we will start from the beginning and build up a working knowledge of the major body systems, grammar topics, cultural considerations, and healthcare. We will also do cultural and hospital site visits as a group, with the professor and students. There is no pre-requisite other than that students be committed to learning and participating in our course and gain instructor approval.

Course Description

This course provides introductory instruction on the four basic skills necessary for language acquisition: speaking, aural comprehension, reading, and writing through a systematic study of basic Spanish grammar, medical terminology, and culture. Medical Spanish I will allow you to feel more comfortable communicating with a patient in Spanish.

This course covers basic medical terminology along with grammatical concepts necessary to conduct a full head to toe patient interview. This course will be two fold. The first portion will be didactic in nature in which the student will learn medical terminology and grammar. The second part of this course will be clinical.

Designed exclusively for UT-PACT students, this program offers a unique study abroad opportunity for program participants to further enhance their preparation for a career in medicine, while immersing themselves in a one month intensive Medical Spanish and Internship Course in Seville, Spain. Students will live with host families, participate in a variety of weekly

activities as outlined by the course calendar, visit the historic cities of Córdoba and Granada, receive medical Spanish training and perform 80 hours of work in a local hospital.

Student Learning Objectives/Outcomes

By the end of this course, the student will be able to:

- Speak Spanish to a Spanish speaking only patient in a clinical setting
- Be more culturally sensitive to the needs of Spanish speaking only patients
- Have a better grasp of medical terminology
- Have a better understanding of the healthcare system in the United States and Spain

Required Textbooks and Materials

The student should purchase the course packet for this class at the bookstore. Handouts will also be provided.

Suggested Course Materials

Medical Spanish: A Conversational Approach 2nd Edition, by Thomas P. Kearon and Maria Antonia DiLorenzo-Kearon, 2000.

Cuaderno de ejercicios to accompany Medical Spanish: A Conversational Approach 2nd Edition, by Thomas P. Kearon, 2000.

Spanish-English/English-Spanish Dictionary
Spanish-English/English-Spanish Medical Dictionary

Papers and Assignments

There will be daily quizzes at the start of class each time we meet in the classroom. These will be a combination of identifications, short answers, and short essays. The top ten quiz grades will count towards 25% of your grade. There will be 4 exams (one hour each), counting towards 25% of your grade. You will also keep a journal in which you write daily about the readings, your understanding of the material, your travels, your firsthand experience of Spain and your hospital internship experiences. This will count for 25% of your grade. Finally, there will be a fifteen-minute presentation made during our travels to Spain. Together these will comprise 25% of your final grade. In short, each element—quizzes, exams, journal, and presentations—counts equally toward your course grade.

Academic Calendar

Week 1	Medical Spanish Pre-test, Pronunciation		ROS, Hair, Skin, Nails Numbers, Days, Months
	Forms, colors Dermatology verbs		Describe that Lesion Interrogatory Words
